Re: Application of American Transmission Company, as an Electric 137-CE-139
Public Utility, to Construct a New Waunakee Substation and Build
a New 138 kV Line from the North Madison Substation to the New
Waunakee Substation in the Towns of Vienna and Westport, Dane
County, WI

Dear Ms. Paske:

On February 20, 2006, American Transmission Company LLC and its corporate manager, ATC Management Inc. (collectively known as American Transmission Company or ATC) filed a Joint Application for a PSCW Certificate of Public Convenience and Necessity and WDNR Utility Permit Application (Part 2) with the PSCW and WDNR, respectively, in the above-captioned docket ("Original Application"). On March 22, 2006, the PSCW and WDNR informed ATC that its application was considered incomplete. They identified the additional information that would be required for the PSCW and WDNR to deem ATC's application "complete".

With this letter, ATC provides the additional information requested in the March 22, 2006 incompleteness determination ("Addendum I"). Addendum I is organized in the same format as the Original Application. It is formatted so that Addendum I pages can be inserted into the Original Application. The footer on each Addendum I page specifies to where the page should be inserted. For instance, the page marked with "Insert in Tech. Support Doc as Page 1A" should be placed behind Page 1 of the Original Application. The "Item" numbers in this Addendum I refer to the numbering system used in the March 22, 2006 incompleteness determination.

Addendum I has been ERF'd at the PSCW. Today, ATC is also hand delivering to the WDNR (Ben Callan) and to the Commission staff (Valerie Mellerop) a hard copy with a diskette containing an electronic copy of Addendum I.

Please contact Glenn Zimmerman at (608) 877-3665 (gzimmerman@atcllc.com), Jamie Lostetter at (608) 877-3633 (jlostetter@atcllc.com), or me at (608) 283-2254 (llazar@michaelbest.com) if you have any additional questions.

Very truly yours,

MICHAEL BEST & FRIEDRICH LLP
